The EPS images look fine in NeoOffice Impress when you're just editing a slide, but once you actually *play* the slideshow, they don't display.. For this purpose, I am using NeoOffice, the Mac OS X version of OpenOffice Unfortunately, dragging and dropping LaTeXiT equations into, say, NeoOffice Impress doesn't work! This seems unusual to me, considering that the advertising for LaTeXiT claims that drag and drop works for both PowerPoint and Keynote.. One way to get around this is to export the equation from LaTeXiT as an image file and then insert that into the NeoOffice document as a graphic. It also includes a nifty utility called LaTeXiT, which acts as a sort of 'equation editor' for LaTeX that lets you skip the preamble,

markup an equation much as you would in PF, then 'LaTeX it' with the press of a button, and drag and drop it into any application that supports it.. Sometimes I want to make a presentation with equations, or a document, in both cases one that others can easily open and edit.. The product key is used during installation to 'unlock' the software I lost my activation code for microsoft office mac.. This is useful to me, because I don't wish to create *all* of my documents using LaTeX.. Export formats include PDF, EPS, PNG, TIFF, JPG A way to create equations and use them in Pages on a Mac.. Lost my product key Had an 'on-line' purchase (last year 2012) for MS Office for Mac 2011.. MathMagic Personal Edition for Mac OS X 9 3 MathMagic is a comprehensive and powerful piece of software designed to assist you in aditing any MathType is a powerful interactive equation editor for Windows and Macintosh that lets you create mathematical notation for word processing, web pages.. Unfortunately for us, only the last 5 characters of the 25-character Office 2016 or 2013 product key is stored on your computer, making a product key finder pretty much useless in this case.. g doc, ppt), the EPS images are not supported The EPS images also don't survive if I export the entire NeoOffice document to PDF format.. None of this has the convenience of drag and drop Let me pre-empt a couple of questions I'm sure you'll ask Q. cea114251b [Enable Action Cam Wow](#)
